

Name	Type	Version
Bivalent space heating with underfloor	Application Information Sheet	2
Bivalent space heating with underfloor & DHW	Application Information Sheet	3
Commercial Plant Heating	Application Information Sheet	2
Commercial Plant Heating & Cooling	Application Information Sheet	2
GSHP & UF with Solar Twin coil	Application Information Sheet	3
Heat pumps and towel rails	Application Information Sheet	2
Heat pumps and swimming pools	Application Information Sheet	2
Open loop systems	Application Information Sheet	5
Shoebox buffer vessel	Application Information Sheet	4
Space heating and DHW	Application Information Sheet	1
Space heating and DHW with rads	Application Information Sheet	1
Space heating and DHW with buffer vessel	Application Information Sheet	4
Space heating with rads and buffer vessel	Application Information Sheet	4
Space heating with rads and UF and DHW	Application Information Sheet	3
Twin tank systems	Application Information Sheet	3
Actual Thermal Outputs	Technical Information Sheet	15.0
Actual Thermal Outputs—Plantroom	Technical Information Sheet	4.0
Buffer Vessel	Technical Information Sheet	10.3

Name	Type	Version
Compact Single	Technical Information Sheet	11
Compact Twin	Technical Information Sheet	13.3
Evo	Technical Information Sheet	7.0
High Temperature Heat Pumps	Technical Information Sheet	11
High Temperature Plantroom	Technical Information Sheet	2.1
High Temp Single Actual Thermal Outputs	Technical Information Sheet	1
Hot Water Cylinder Selection Guide	Technical Information Sheet	3
Hybrid Twin	Technical Information Sheet	4.1
Plantroom	Technical Information Sheet	12.0
Pond Mats	Technical Information Sheet	7.0
Shoebox Heat Pumps	Technical Information Sheet	6.4
Single Coil Cylinder	Technical Information Sheet	11.0
Twin Coil Cylinder	Technical Information Sheet	12.0
Underground Manifold Chambers	Technical Information Sheet	5.1
